

9 out of 10 vacuum fillers sold in sub-Saharan Africa is a Handtmann!

Handtmann VF 608 PLUS

Successful all round!

For over four decades the Handtmann filling technology has been the preferred choice of meat processors in Africa and Freddy Hirsch the exclusive supplier of these fillers with over 1000 units sold in the region.

The **Handtmann VF 608 Plus** is designed for the needs of producers with great diversity and small batch production.

The other outstanding features are:

- Sophisticated technology delivering excellent filling, portioning and twisting accuracy.
- CE safety concept compliant with EU standards.
- Gentle filling process ensures no smearing of products.
- Simple multi-functional control system make it easy to operate.
- Reliability, long service life and low wear due to industrial standard technologies.
